Project Name	PlantCare AI: Advanced Plant Disease Detection Using Transfer Learning
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am... (Customer)	I'm trying to...	But...	Because...	Which makes me feel...
PS-1	a small-scale farmer	quickly identify and treat the unknown spots spreading on my crops	I don't know what specific disease or pest is causing them	many plant diseases look identical to the naked eye and I lack expert botanical knowledge	helpless, stressed, and anxious about losing my harvest and income.
PS-2	an enthusiastic home gardener	keep my indoor and backyard plants healthy	my plants keep dying before I can figure out what is wrong with them	searching for symptoms online gives me too much conflicting information	frustrated, confused, and discouraged from growing plants.
